The report shall include a description of the problem and an indication of the date on which it started and of the remedial action taken by the Contractor to ensure full compliance with his obligations under the Contract. In such event the Contractor shall give priority to solving the problem rather than determining liability.

II.1a.4 Additional costs incurred by the replacement are the responsibility of the Contractor. ITER Organization makes no payment for the period when the expert to be replaced is absent. Any conflict of interests which could arise during performance of the Contract must be notified to the ITER Organization in writing without delay. In the event of such conflict, the Contractor shall immediately take all necessary steps to resolve it.

The ITER Organization reserves the right to verify that such measures are adequate and may require additional measures to be taken, if necessary, within a time limit which it shall set. The Contractor shall ensure that his staff, board and directors are not placed in a situation which could give rise to conflict of interests. Without prejudice to Article II.1 the Contractor shall replace, immediately and without compensation from the ITER Organization, any member of his staff exposed to such a situation.

II.3.2. The Contractor declares:

- that he has not made and will not make any offer of any type whatsoever from which an advantage can be derived under the Contract,
- that he has not granted and will not grant, has not sought and will not seek, has not attempted and will not attempt to obtain, and has not accepted and will not accept, any advantage, financial or in kind, to or from any party whatsoever, where such advantage constitutes an illegal practice or involves corruption, either directly or indirectly, inasmuch as it is an incentive or reward relating to performance of the Contract.

II.3.3. The Contractor shall pass on all the relevant obligations in writing to his staff, board, and directors as well as to third parties involved in performance of the Contract. A copy of the instructions given and the undertakings made in this respect shall be sent to the ITER Organization should it so request.

ARTICLE II.4 – PAYMENT

At the end of each of the periods indicated in Annex II, the Contractor shall submit to the ITER Organization a formal request for payment accompanied by the following documents:

- a (technical) report in accordance with the instructions laid down in Annex I;
- the relevant invoices indicating the reference number of the Contract to which they refer.

If the report is a condition for payment, on receipt the ITER Organization shall have such a period of time agreed upon the parties in which:

- to approve it, with or without comments or reservations
- to suspend such period and request additional information; or
- to reject it and request a new report.

If the ITER Organization does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations or information enclosed.

Where the ITER Organization requests a new report because the one previously submitted has been rejected, this shall be submitted within two weeks. The new report shall likewise be subject to the above provisions.

ARTICLE II.5 – GENERAL PROVISIONS CONCERNING PAYMENTS

II.5.1. Payments shall be deemed to have been made on the date on which the ITER Organization's account is debited.

II.5.2. The payment periods referred to in Article I.4 may be suspended by the ITER Organization at any time if it informs the Contractor that his payment request is not admissible, either because the amount is not due or because the necessary supporting documents have not been properly produced. In case of doubt on the eligibility of the expenditure indicated in the payment request, the ITER Organization may suspend the time limit for payment for the purpose of further verification, including an on-the-spot check, in order to ascertain, prior to payment, that the expenditure is eligible.

The ITER Organization shall notify the Contractor accordingly by registered letter with acknowledgment of receipt or equivalent. Suspension shall take effect from the date of dispatch of the letter. The remainder of the period referred to in Article I.4 shall begin to run again once the suspension has been lifted.

II.7.3 All property of the Contractor while at the ITER Organization premises shall be at risk of the Contractor and the ITER Organization shall accept no liability for any loss or damage to that property or caused by that property except where any such loss or damage was caused only by willful misconduct or gross negligence of any employee of the ITER Organization acting in the course of his employment. The ITER Organization shall accept liability only to the extent to which such loss or damage is so caused or contributed to.

ARTICLE II.8 – OWNERSHIP OF THE RESULTS - INTELLECTUAL AND INDUSTRIAL PROPERTY

Any results or rights thereon, including copyright and other intellectual or industrial property rights, obtained in performance of the Contract, shall be owned solely by the ITER Organization, which may use, publish, assign or transfer them as it sees fit, without geographical or other limitation, except where industrial or intellectual property rights exist prior to the Contract being entered into. The ownership of background intellectual property will not change unless otherwise agreed by the ITER Organization and the Contractor.

It shall state that the opinions expressed are those of the Contractor only and do not represent the ITER Organization's official position.
- II.10.4.** The use of information obtained by the Contractor in the course of the Contract for purposes other than its performance shall be forbidden, unless the ITER Organization has specifically given prior written authorisation to the contrary.

- II.11.2.** The Contractor recognises that the ITER Organization is, as a rule, exempt from all taxes and duties, including value added tax (VAT).
- II.11.3.** The Contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the goods and services required for performance of the Contract are exempt from taxes and duties, including VAT. This applies in particular to VAT invoiced in France.

II.12.1.Force majeure shall mean any unforeseeable and exceptional situation or event beyond the control of the contracting parties which prevents either of them from performing any of their obligations under the Contract, was not due to error or negligence on their part or on the part of a subcontractor, and could not have been avoided by the exercise of due diligence. Defects in equipment or material or delays in making it available, labour disputes, strikes or financial problems cannot be invoked as force majeure unless they stem directly from a relevant case of force majeure.

II.12.2.Without prejudice to the provisions of Article II.1.8, if either contracting party is faced with force majeure, it shall notify the other party without delay by registered letter with acknowledgment of receipt or equivalent, stating the nature, likely duration and foreseeable effects.

II.12.3.Neither contracting party shall be held in breach of its contractual obligations if it has been prevented from performing them by force majeure. Where the Contractor is unable to perform his contractual obligations owing to force majeure, he shall have the right to remuneration only for tasks actually executed.

II.12.4.The contracting parties shall take the necessary measures to reduce damage to a minimum.

ARTICLE II.13 – SUBCONTRACTING

II.13.1.The Contractor shall not subcontract without prior written authorisation from the ITER Organization nor cause the Contract to be performed in fact by third parties.

The ITER Organization may claim compensation for any damage suffered and recover any sums paid to the Contractor under the Contract.

On termination the ITER Organization may engage any other contractor to complete the services. The ITER Organization shall be entitled to claim from the Contractor extra costs incurred in making good and completing the services, without prejudice to any other rights or guarantees it has under the Contract.

ARTICLE II.16 – TERMINATION BY NOTICE

The ITER Organization may, of its own volition and without being required to pay compensation, terminate the Contract by serving a 15 days formal prior notice. Should the ITER Organization terminate the Contract, the Contractor shall only be entitled to payment corresponding to the services delivered and objectively justified irrevocable commitments entered into before the termination date.. On receipt of the letter terminating the Contract, the Contractor shall take all appropriate measures to minimise costs, prevent damage, and cancel or reduce his commitments. He shall draw up technical and financial reports for services rendered and irrevocable commitments up to the date on which termination takes effect, within a period not exceeding sixty days from that date.

ARTICLE II.17 – SUBSTANTIAL ERRORS, IRREGULARITIES AND FRAUD ATTRIBUTABLE TO THE CONTRACTOR

This percentage will be specified in the Special Conditions. If the percentage is not specified then this article does not apply unless otherwise agreed by the parties.

The Contractor may submit arguments against this decision within thirty days of notification by registered letter with acknowledgement of receipt or equivalent. In the absence of reaction on his part or of written withdrawal by the ITER Organization within thirty days of the receipt of such arguments, the decision imposing the liquidated damages shall become enforceable. The ITER Organization and the Contractor expressly acknowledge and agree that any sums payable under this Article are in the nature of liquidated damages and not penalties, and represent a reasonable estimate of fair compensation for the losses that may be reasonably anticipated from such failure to perform obligations.

ARTICLE II.21 – AMENDMENTS

The ITER Organization may within sixty (60) calendar days following suspension give notice to the Contractor to resume the work suspended or terminate the Contract following Article II.16 procedure. If the suspension under this Article II.22 is cancelled or the period of the notification or any extension thereof expires, the Contractor shall resume work. The ITER Organization will make an equitable adjustment in the delivery schedule or contract price, or both, and the Contract shall be modified, in writing, accordingly if 1) the suspension results in an increase in the time required for, or in the Contractor's cost properly allocable to the performance of any part of the Contract; and 2) the Contractor asserts its right to the adjustment within thirty (30) days after receiving it.
